

BETONSEN

HOLLOW BLOCK MACHINES
INTERLOCK MACHINES

ABOUT US

The Turkish company BETONSEN was established in 2009 in Ankara. Today, the company exports 95% of its products worldwide. We have been working hard in the block machine sector for many years and produce high-quality CONCRETE BLOCK AND INTERLOCK MACHINES AND CONCRETE BATCHING PLANTS. And we also continue to develop our knowledge in this area using modern technologies. BETONSEN has signed important agreements for the production of blocks and concrete plants with many companies in Turkey and abroad.

Our company is aiming to be the leader in that kind of production of concrete machinery and equipment including design, spare parts manufacturing and supply. We offering complete production quality and quality in workmanship, assembly, operation, training and after-sales services.

It contributes to the economy of the country by giving importance to scientific researches about the products it produces and by being in the domestic and foreign markets.

BETONSEN designs concrete paving and block machines and facilities in accordance with national and international standards.

We doing our best to produces and delivers on time. The company acts with the principle of continuous improvement, just-in-time production and zero error in order to increase efficiency and quality.

WHY BETONSEN ?

2 years mechanical equipment warranty

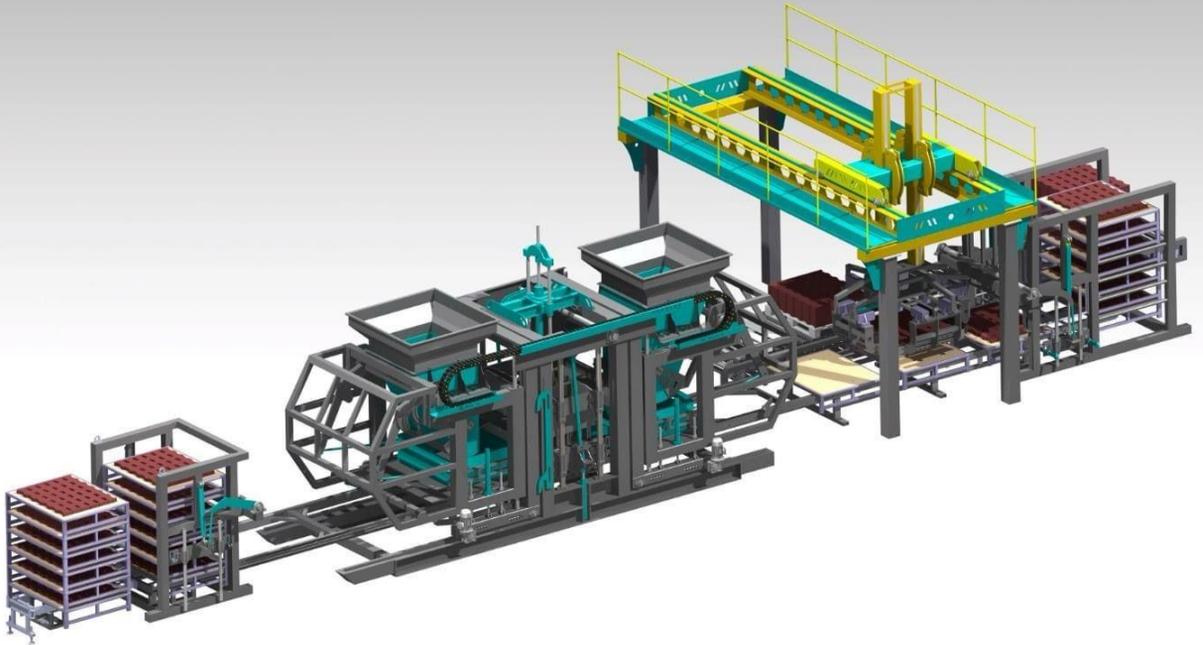

Just in time production

Unlimited technical support

24/7 Availability

CONCRETE BLOCK & INTERLOCK MACHINES

CONCRETE BATCHING PLANTS

BS12 CONCRETE BLOCK MACHINES

Technical Specifications

Machine Operation System	Automatic (PLC) or Semi-automatic BS12
Machine Production Capacity	120-140 Pallet Per Hour
Minimum Product Height	5 cm
Maximum Product Height	35 cm
Vibration power	12.000 kg
Production Capacity	Interlock 8 hours 300m2 Blocks 4500pcs/8 hours
Product quantity in a pallet	12 pieces of Interlock, 4 pieces Blocks (20)
Wooden Pallet Dimensions	680X750X370

BS20 CONCRETE BLOCK & INTERLOCK MACHINES

Technical Specifications

Machine Operation System	Automatic (PLC) or Semi-automatic BS20
Machine Production Capacity	120-140 Pallet per our
Minimum Product Height	5 cm
Maximum Product Height	35 cm
Vibration power	12.000 kg
Production Capacity	Interlock 8 hour 500m2 Block 9000 pcs/8hour
Product quantity in a pallet	20 pieces of Interlock, 8 pieces Blocks (20)
Wooden Pallet Dimensions	920x1000x40

BS25 CONCRETE BLOCK & INTERLOCK MACHINES

Technical Specifications

Machine Operation System	Automatic (PLC) or Semi-automatic BS25
Machine Production Capacity	130-150 Pallet per hour
Minimum Product Height	5 cm
Maximum Product Height	35 cm
Vibration power	14.000 kg
Production Capacity	Interlock 8 hour 700m2 Block 12000 pcs/8hour
Product quantity in a pallet	25 pieces of Interlock, 10 pieces Blocks (20)
Wooden Pallet Dimensions	980x1200x40

BS30 CONCRETE BLOCK & INTERLOCK MACHINES

Technical Specifications

Machine Operation System	Automatic (PLC) or Semi-automatic BS30
Machine Production Capacity	130-150 Pallet per hour
Minimum Product Height	5 cm
Maximum Product Height	35 cm
Vibration power	14.000 kg
Production Capacity	Interlock 8 hour 850m2 Block 12000 pcs/8hour
Product quantity in a pallet	30 pieces of Interlock, 10 pieces Blocks (20)
Wooden Pallet Dimensions	1150x1200x40

BS36 CONCRETE BLOCK & INTERLOCK MACHINES

Technical Specifications

Machine Operation System	Automatic (PLC) or Semi-automatic BS36
Machine Production Capacity	130-150 Pallet per hour
Minimum Product Height	5 cm
Maximum Product Height	35 cm
Vibration power	16.000 kg
Production Capacity	Interlock 8 hour 1100m2 Block 15000 pcs/8hour
Product quantity in a pallet	36 pieces of Interlock, 12 pieces Blocks (20)
Wooden Pallet Dimensions	1150x1400x45

BS42 CONCRETE BLOCK & INTERLOCK MACHINES

Technical Specifications

Machine Operation System	Automatic (PLC) or Semi-automatic BS42
Machine Production Capacity	130-150 Pallet per hour
Minimum Product Height	5 cm
Maximum Product Height	35 cm
Vibration power	16.000 kg
Production Capacity	Interlock 8 hour 1300m2 Block 23000 pcs/8hour
Product quantity in a pallet	42 pieces of Interlock, 18 pieces Blocks (20)
Wooden Pallet Dimensions	1350x1400x45
